

KLOVE plays great music--Christian rock, rapp, contemporary--great for me and my children. Something we all like. No foul language or sexual conotations, no suggestions of violence that is "cool" or suicide being "cool"--I have teenagers as well as young children. Some of my children's friends listen to it--good common bond--I have it playing in the car--so if friends ride along--they hear it--it may be the only time they get to hear about God. It would be a tragedy to remove the KLOVE station in my area--we listen to it at work, driving, in the bathroom--sometimes it's all anyone needs to get thru the next 10 minutes of their day--radio and t.v. have a high impact on all of us in general--especially our children. Don't take this positive radio station away from so many that depend on it on a daily basis.
